

INTERNATIONAL PARTNERSHIP PROFILE

Your Saudi partner for defense & marine industries

SADEEM Engineering Industries explores partnerships with international manufacturers and technical specialists seeking local representation and project opportunities in Saudi Arabia.

FOCUS AREAS

MARINE & SHIP SYSTEMS

Vessels and shipbuilding
Propulsion and onboard systems
Navigation and communications
Maintenance and lifecycle support

DEFENSE & NAVAL SUPPORT

Naval systems and components
Technical and maintenance support
Training and simulation
Saudi market coordination

THE PARTNERSHIP PROPOSITION

A local relationship for market development, tender coordination, technical discussions, training opportunities and after-sales planning. The scope of every engagement is defined with the partner and remains subject to the approvals and requirements applicable to each activity.

FROM INTRODUCTION TO OPPORTUNITY

A practical route into the Saudi market

01 Understand the fit

Review your products, target customers and the opportunities you want to pursue in Saudi Arabia.

02 Define the relationship

Agree the potential scope of representation, technical coordination and local responsibilities.

03 Pursue opportunities

Assess relevant tenders and projects together, with roles agreed for each opportunity.

04 Plan local support

Explore training, maintenance and after-sales arrangements suited to the product and customer.
